

Foliar Fertilizers Help Fill The Gaps

Table 1. The functions of micronutrients in plant development (from Essential Elements in Crop Nutrition and Development)

Element (Symbol)	Zn	B	Mn	Cu	Mo	Cl
Plant growth	+	+	+	+	+	+
Yield and quality	+	+	+	+	+	+
Resistance to diseases	+	+	+	+	+	+
Resistance to insects	+	+	+	+	+	+
Water utilization	+	+	+	+	+	+
Photosynthesis	+	+	+	+	+	+
Response to high CO ₂ program variables	+	+	+	+	+	+
Deep roots	+	+	+	+	+	+
Leaf senescence	+	+	+	+	+	+

Fertility plans are not a one-size-fits-all kind of deal. They are often tailored to each customer and often to each field. The needs of each customer and field are often determined by soil sampling, tissue sampling, management practices, weather, costs, and return on investment. For now, we want to focus on tissue samples.

Boosting Bushels: Seed Treatment Edition

What's in a seed treatment?

Very soon farmers will be in the field for the spring run. With planting right around the corner, seed treatments are being formulated so the seed can be treated before planting.
