

## The Benefits Of Downstream And Overtreating Corn Seed

When preparing for planting, it is important to protect your seed investment with a seed treatment to help set yourself up for success throughout the growing season. Seed treatments are a common practice, and today, almost all corn seed is treated at the production plant before being delivered to the retailer, such as Ag Partners.

## Mr. Tire Service Center Protocol Changes

### Attention Customers

- We have set up a barrier at the door to prevent an excess of people waiting in the lobby.
- An employee will be present at the main desk at all times to take customer orders.
- Remain in your vehicle until our team is ready to work on it. After your vehicle is taken, you may enter the lobby.
- Chairs are spaced six feet apart from each other, with six spots available in total.
- We encourage customers to call ahead to place orders or make appointments.
- Vehicle pick-up is NOT available.
- Employees will sanitize vehicles before operating.
- Coffee and popcorn is not being offered.
- Customers will not be allowed in the shop area.

**\*UPDATE\*** Mr. Tire will NOT offer their vehicle pick-up service until further notice.

In order to maintain operations while protecting the health and safety of employees and customers during the current COVID-19 situation, they have updated our protocols, effective immediately.

*He is Risen*

**HAPPY  
EASTER!**
