

Ag Partners - Your Lead For Seed

Fall is a great time to start considering seed options for the next growing season. When working with Ag Partners, our team is committed to helping you succeed and achieve your goals on-farm and in the marketplace. New genetics are hitting the market annually, so as you sit down and make your seed purchasing decisions this fall, talk to your Ag Partners agronomist to make sure you are getting the latest products that provide the most potential for your business.

International Visitors

This week, our Sabetha location hosted a group from different companies in Mexico who do business with Ag Processing Inc (AGP). The guests went on a tour of the facility and learned more about how we handle grain, where our markets are, and how our relationship with AGP works. They were also interested in the precision technology services that Ag Partners offers.

Calibrating Dry Fertilizer Spreaders

Ethan Noll, Digital Ag & Service Specialist, snapped photos of Custom Applicators, Casey Gerdes and Brandon Cowley, calibrating dry fertilizer spreaders last week. They checked each rig's distribution accuracy by measuring trays lined out across a field.
