EARN 0% FINANCING ON SEED!

Book and apply **Ascend²**, **Ascend ST3** or **ARx Sync** products on your corn and soybean acres to earn a seed interest rate buy down rebate!

ARx SYNC

ARx Sync is an organic-acid-based starter fertilizer additive and booster. ARx Sync greatly enhances uptake of starter fertilizer nutrients and boosts plant growth and development. The highly refined nature of the product assures ease of blending in nearly all liquid fertilizers and combines high biological activity and low use rates.

ARx Sync stimulates soil microbes for increased enzyme release near roots. ARx Sync is best described as a transport mechanism to move nutrients to plant roots. It can be applied directly at planting or later as a side-dress application.

ARx Sync will enhance our A7-23 and 8-20 products for additional:

- Phosphate protection
- Micronutrient organic complexion
- Sulfur conversion enhancement
- Abiotic stress relief

ARx Sync can be added to starter fertilizers directly at your local Agtegra location or can be supplied for on-farm addition to existing liquid fertilizers.

Ascend²®

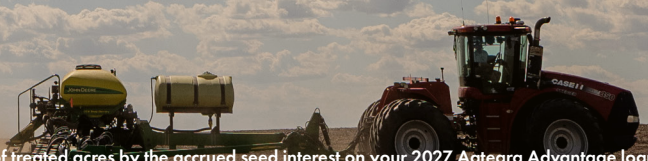

Ascend² PGR helps corn emerge faster, stronger and more consistently for season-long benefits. Give corn a strong ally with a potential positive yield impact of 7.5 bushels per acre, as compared to starter fertilizer alone.

WINFIELD® UNITED

Ascend® ST3™

Help accelerate early-season development, improve germination and enhance root growth with the addition of a PGR seed treatment. Ascend ST3 plant growth regulator helps protect your seed investment from early-season stress.

CONTACT YOUR AGRONOMIST TODAY!

The rebate is calculated by multiplying the percentage of treated acres by the accrued seed interest on your 2027 Agtegra Advantage loan as of December 1, 2027. The following use rates will be used to calculate the percentage of treated acres: 4 oz/ac Ascend², 0.5 oz/ac Ascend ST3, 4 oz/ac Ascend SL, 5 oz/ac ARx Sync RTU, 35 ac/ton 8-20 Powered by ARx Sync, 0.2 ac/gal A7-23 Powered by ARx Sync, 0.2 ac/gal A7-23+ Powered by ARx Sync, 1 ac/bag soybean seed and 2.67 ac/bag corn seed. Rebate will be applied as a credit on your Agtegra account by December 31, 2027. All registered trademarks property of their respective owners.
