

INNOVATION CENTER

SUMMER SALE!

NOW through September 30, 2025!

FurrowForce® PRECISION PLANTING

FurrowForce is a two-stage closing system that adapts to your planting conditions to remove air pockets and firm soil to retain moisture, giving you confidence that your crops will germinate the best that they can.

No-load Cell: **\$100 off PER ROW**

Load Cell: **\$200 off PER ROW**

360 Yield Saver® 360 YIELD CENTER

The 360 Yield Saver reduces corn header loss by up to 85% using poly blocks and intermeshing bristles to cushion ears and capture kernels, delivering significant ROI and increased yield retention.

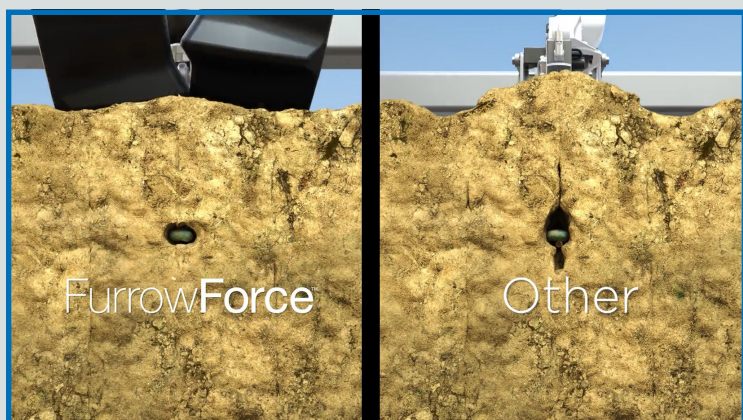

Receive \$100 off PER ROW

360 Chainroll® 360 YIELD CENTER

The 360 Chainroll enhances residue breakdown and nutrient release by cutting corn stalks into perforated seven-inch segments, improving microbial activity, seedbed conditions and yield potential compared to traditional stalk rolls.

Receive \$100 off PER ROW

**Purchase Yield Saver and Chainroll
together and receive
\$300 off PER ROW!**
