

You don't always think about home heating during the summer, but you should!

LP prices tend to be lower in the summer when there is less demand for it. The savings can add up quickly. By planning ahead you can save yourself a lot of penny-pinching headaches this winter.

Allied Cooperative's special Summer Fill pricing is available now. Be sure to act soon as the markets are constantly fluctuating. **Call today and SAVE!** And don't forget to ask us about our prepay and budget programs!

Contact the Allied Cooperative LP office closest to your home:
