

Propane Contract Terms and Conditions

Payment Terms: Contract is not valid until payment and signed contract are received by Central Region Cooperative. CRC credit terms apply. Seller warrants that the product is free and clear of all liens, encumbrances, and penalties. Unused contract gallons or refusal to take delivery of contracted gallons prior to the expiration date of the contract will result in a penalty calculated by the difference in contract price as stated in this agreement and rack price at the time of contract expiration multiplied by remaining contract gallons plus .10 cent per gal to be invoiced at the end of the contract period.

Delivery: All contracted gallons will be delivered before any cash/rack purchases within specific contract periods. Scheduled delivery means that Central Region Cooperative will make periodic deliveries of propane filling your tank to its capacity. It DOES NOT mean that CRC will guarantee that you will not run out of propane. You must monitor the level of your tank and call Central Region Cooperative if your tank gets below 20%. Because many factors influence how much propane each customer uses at various times during the heating season it is impossible for CRC to guarantee an uninterrupted supply of propane. CRC has the authority to decline any customer or cancel any contract due to poor credit rating or account delinquency. CRC will not deliver propane to past due accounts, this may cause your tank to run out of propane which could cause an interruption in your heating system, damaging your home and property.

Purchase: Prepaid balances or credit balances do not accrue interest. Contract gallons are for the sole use of the purchaser and are not transferable. The contract price applies to all delivered contracted gallons during the contract period. If purchaser refuses delivery of contracted gallons during its term, the purchaser will be subject to a price adjustment as stated above in "payment terms". If seller suppliers do not fulfill their contracted obligations, seller reserves the right to pass on surcharges or extra transportation costs. Central Region Cooperative procures propane at logistically specific terminals. If supply dictates that propane needs to be procured at terminals outside of this territory additional transportation costs, transportation demerge, pipeline fees, or any other additional procurement expenses will be applied to contract values.

Indemnification: Seller is not liable for delay, default, or impossibility of performance on its part due to an act of God, government restraints, shortages, riots, strikes, lockouts, machinery breakdowns, civil disturbances of any nature or any occurrence beyond sellers control.

I have read and understand all the terms and conditions stated on this agreement.
