

## 2024 SPRING WHEAT PROGRAM

CRC will direct ship wheat from your farm to the Minneapolis/St. Paul buyers, or other destinations that you choose. Here is how it will work.

- You harvest your wheat and put it on your wagons/trucks to be reloaded onto a CRC truck, or CRC can provide a truck in your field for direct loading.
- CRC will pick up your wheat from your farm and deliver it directly to the buyer's location.
- You will get paid for the load based on the price received, minus grade discounts, testing charges, weighing fees, handling and freight costs.

**Please give CRC notice in advance of when you will need trucks.**
