Safety Data Sheet

Section 1: Identification		
Product Name:	RID ICE	
Other means of identification:	None	
Recommended Use:	Ice melt	
Manufacturer	BCA Products	
	24399 225th Avenue	
	P.O. Box 429	
	Sleepy Eye, MN 56085	
	www.bca-products.com	1
	kristi.saenz@centralreg	ioncoop.com
Telephone	1-507-794-5411	
Emergency telephone number	CHEMTREC	1-800-424-9300
Section 2: Hazard Identification		
Classification according to paragraph (d) of	Mixture	
§1910.1200:		
Label Elements	^	
		Signal Word:
		WARNING
Hazard Statements	Causes eye irritation	
Precautionary Statements	Avoid breathing dust. A	void contact with eyes, skin, and clothing. Do not
	taste or swallow. Use or	nly with adequate ventilation. Wash thoroughly
	after handling. Keep cor	ntainer closed.
Other hazards	None identified at this t	ime.
Other Information	NFPA	
	Health -1	
	Flammibility - 0	
	Reactivity - 0	<u> </u>
Section 3: Composition/information	on ingredients	

Chemical Name	Common Name	CAS #	Impurities and stabilizing additives	%
Sodium Chloride	Salt	7647-14-5	None	Trade Secret*
Magnesium Chloride	None	7791-18-6	None	Trade Secret*
*Exact percentages of composition has been withheld as a trade secret is required.				

Section 4: First-Aid Measures

Description of First Aid Measures

Inhalation:

Move to fresh air. Treat symptomatically. Get medical attention if symptoms persist.

Immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if irritation develops and persists.

Skin:

Eye: Ingestion:	Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention if irritation develops and persists. Drink plenty of water. Seek medical advice. If ingestion of a large amount does occur, call a poison control center immediately.
Most important symptoms and affects, both acute and delayed	
Inhalation:	Symptoms may include coughing or shortness of breath.
Skin:	Symptoms include redness, itching and pain.
Eye:	Symptoms include redness, pain, itching and burning.
Ingestion:	Symptoms include nausea, vomiting and diarrhea.
Indication of any immediate medical attention and special treatment needed	Get medical attention immediately if symptoms are non-responsive to suggested first aid measures.

Section 5: Fire-fighting Measures		
Flammable Properties	This product is not flammable.	
Suitable Extinguishing Media	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.	
Unsuitable Extinguishing Media	None identified at this time.	
Specific Hazards arising from the chemical	When subjected to extremely high temperatures, it may release small quantities of chlorine gas.	
Special Protective Equipment and Pre- cautions for Fire-fighters	Fire fighters should wear full protective gear. Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. As in any fire, wear self-contained breathing apparatus pressure-demand. MSHA/NIOSH (approved or equivelant) and full protective gear.	

Personal precautions, protective	
equipment and emergency procedures	
Personal Precautions	Keep unnecessary personnel away. Keep upwind. Ventilate the area. Avoid inhalation of dust from the spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.
Protective Equipment	Gloves recommended. Respirator optional.
Emergency Procedures	If spill could enter any waterway, contact the local authorities. Contact the NATIONAL RESPONSE CENTER at 1-800-424-8802. In case of accident or road spill notify: CHEMTREC at 1-800-424-9300.
Environmental Precautions	Prevent further leakage or spillage if safe to do so.

Methods and Material for Containment	If sweeping of a contaminated area is necessary use a dust suppressant agent which does not react with the product. Prevent entry into waterways, sewer, basements, or confined areas.
Methods and Material for Cleanup	Avoid dust formation.
Measures	
	Small Spills: Sweep up or vaccuum up spillage and collect in suitable container for disposal.
	Large Spills: Collect dust or particulates using a vacuum cleaner with a
	HEPA filter. Reduce airbourne dust and prevent scattering by moistening with water.
	Never return spills in original containers for re-use. Clean contaminated surface thoroughly. Clean up in accordance with all applicable regulations.

Section 7: Handling and Storage	
Precautions for safe handling	Keep formation of airbourne dusts to a minimum. Avoid breathing dust. Avoid contact with eyes, skin, and clothing. Do not taste or swallow. Use only with adequate ventilation. Wash thoroughly after handling. See section 8 of the SDS for Personal Protective Eqiupment.
Conditions for safe storage:	Keep container tightly closed in a dry, cool, and well-ventilated area.
Incompatible Materials:	Lithium, bomine triflouride. Contact with strong acid may produce hydrogen chlorine gas; contact with hot nitric acid may produce toxic nitrosyl chloride. Mildly corrosive to metals in the presence of moisture.

Section 8: Exposure controls/personal protection

Control Parameters

Chemical Name	CAS #	OSHA PEL	ACGIH TLV
Sodium Chloride	7647-14-5	15mg/m ³	10mg/m ³
Magnesium Chloride	7791-18-6	15mg/m ³	3mg/m ³

Engineering Measures/Controls:	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation or other engineering controls to maintain airbourne levels below recommended exposure limits. If exposure limits have not been established, maintain airbourne levels to an acceptable level.
Personal Protective Equipment	
Eye/Face	Use tight fitting goggles if dust is generated.
Hands	Gloves
Skin/Body	Wear appropriate clothing to prevent repeated or prolonged skin contact.
Respiratory protection	Wear respirator if there is dust formation.
General Hygiene	Provide eyewash station and safety shower. Always observe good
Recommendations	personal hygiene measures, such as washing after handling the material
	before eating, drinking, and/or smoking. Routinely wash work clothing
	and protective equipment to remove contaminants.

Section 9: Physical and chemical properties

Appearance/Description	
Physical State	Solid crystal
Color	White
Taste	Not Available
Odor	Odorless
Odor Threshold	Not Available
рН	Not Available
Melting Point/Freezing Point	1423°F
Initial Boiling Point and Boiling Range	2732°F
Flash Point	Not Available
Evaporation Rate	Not available
Flammability	Not Available
Upper/lower flammibility limits	Not Available
Vapor Pressure	Not available
Vapor Density	Not available
Relative Density	Not Available
Solubilities	Water
Partition coefficient: n-octano/water	Not Available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	Not Available
ection 10: Stability and reactivity	

Section 10: Stability and reactivity			
Reactivity	None identified at this time.		
Chemical Stability	Stable under normal temperature conditions.		
Possibility of hazardous reactions	Hazardous polymerization does not occur.		
Conditions to avoid	Excessive heat. Incompatibilities.		
Incompatible materials	Lithium, bomine triflouride. Contact with strong acid may produce		
	hydrogen chlorine gas: contact with hot nitric acid may produce toxic		
	nitrosyl chloride. Mildly corrosive to metals in the presence of moisture.		
	nitrosyl chloride. Mildly corrosive to metals in the presence of moisture.		

Hazardous decomposition products	Hydrogen chloride. Upon combustion, oxides of chlorine may be released.
	May include oxides of potassium.
Section 11: Toxicological Information	
Routes of exposure:	Inhalation, Ingestion, Skin, and Eyes
Acute (Immediate) Effects	None identified at this time.
Chronic (Delayed) Effects	None identified at this time.

Chronic effects from short term exposure None identified at this time.

Chronic effects from long term exposure

None identified at this time.

Numerical measure of toxicity Not available

Whether the hazardous chemical is listed inNothe National Toxicology Program (NTP)Report on Carcinogens (latest edition) orhas been found to be a potentialcarcinogen in the International Agency forResearch on Cancer (IARC) Monographs(latest esition), or by OSHA

Section 12: Ecological Information	
None identified at this time.	
This material is readily biodegradable and is not likely to bioconcentrate.	
Bioaccumulation is a possibility.	
This material is readily absorbed by plants from the soil. Mobility is	
possible when mixed with water.	
None identified at this time.	
None identified at this time.	
Waste must be disposed of in accordance with federal, state, and local	
environmental control regulations.	
Waste must be disposed of in accordance with federal, state, and local	
environmental control regulations.	
Section 14: Transportation Information	
Not regulated as dangerous goods	
Not regulated as dangerous goods.	

Section 15: Regulatory Information

Safety, health and environmental regulations specific for the product in question		
US federal regulations	This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory List.	
	CERCLA/SARA Hazardous Substnaces - Not applicable.	
CERCLA (Superfund) reportable quantity	None	
Superfund Amendments and Reauthorization Act of 1986 (SARA)		
Hazard Categories	Immediate Hazard - Yes	
	Delayed Hazard - No	
	Fire Hazard - No	
	Pressure Hazard - No	
	Reactivity Hazard - No	
Section 311 hazardous		
chemical	Yes	
Section 16: Other Information		
Last Revision Date	8/8/2023	
Preparation Date	8/8/2023	
Disclaimer/Statement of Liability	The information contained herein is accurate to the best of our knowledge. My Company makes no warranty of any kind, express or implied, concerning the safe use of this material in your process or in combination with other substances.
