

CONNECTING THE INDUSTRY

CERES SOLUTIONS & AGWORLD PARTNER TO BRING YOU A MOBILE APP

Basic access to Agworld for free

Digital **Collaboration** & Communication

View notes, maps and jobs created for you by Ceres Solutions.

Transparency to the Plan & Jobs done by Ceres

Easily view your customized agronomic plan. Know when planned activities have been scheduled and/or executed to ensure that you are on track for the season.

Get **Notifications** when Jobs are Completed

Be the first to know when an activity has been completed by Ceres Solutions through Agworld's in-app dashboard and text & email notifications.

Access to **Soil & Yield Maps**

Access to view nutrient and yield maps as soon as they have been processed. (Only included with acres enrolled in CORE agronomics)

Centralized Field Records & Observations

Gain real time access to all of the observations made on your farm on behalf of Ceres Solutions. Access all notes and photos that have been captured in the field.

Mobile Apps

Gain access anywhere to your farm records with Agworld's offline (no internet needed) native apps for iPhone & iPad. Or via browser on desktop and Android.

Plus - **\$2495 per year**

Includes Basic Access, plus:

Customize your season Crop Plan

Create the exact plans, budgets, and cost overview you need to work with us on making informed more profitable decisions all season long.

Workflow Management

Create and assign jobs to your farm staff for execution. Use Agworld's scheduling, in field tank mix and harvest tracking tools for a complete workflow solution across your farm operation.

Financial Tracking and Reporting

Update and manage your costs in Agworld to benchmark your progress throughout the season and visualize your profitability at any time. Report and analyze your agronomic and financial details mid or post season.
