

CO-ALLIANCE®

Directive Soil Sampling

Soil Sampling Program

Your soils are one of the most important assets for your farming operation. With Co-Alliance Directive Soil Sampling you receive a coordinated sampling program that incorporates the latest technologies and field specific services to help you earn more from every acre.

- 2.5 to 4 acres soil type or Veris zones with Multiple year rotation options
- Geo-Referenced Soil Points allow us to consistently return to each sample point year after year
- Hydraulic Auto-Probes to ensure consistent depth of sampling
- Precise Product Rec's based on Industry Standards and/or Yield Removal with Soil Test data Rec's
- Quick access to Fertilizer and Lime Recommendation's through DataOnTouch® Maps DOT (with subscription)

Benefits

- Make better cropping decisions based on soil test results
- Manage your field by the acre not by the whole field
- Be more efficient with your fertilizer dollar
- Place Nutrients in the right place with the right amount
- Use yield nutrient removal with your soil test results
- Enhance Variable Rate Seeding Rec's using soil test data

What You Get:

- Sample pulled in same geo-referenced point each and every sampling rotation
- Consistent sample depth with homogenous soil sample across the soil profile
- Fertilizer and lime recommendations based on soil test results and Yield Removal (Optional)
- Soil Sample Lab Analysis performed by our partner soil labs
- With a DataOnTouch subscription, view all test results, recommendation maps, and as-applied data for each field on your mobile device

DataOnTouch: Directive Soil Sampling and More

DataOnTouch is the web-based and mobile system developed by Co-Alliance for convenient and easy access to the data you need for better decision-making. Check out the additional features of DataOnTouch by working with your local sales specialist.

Scouting: Free, instant access to real-time and historical reports with your Scouting Program enrollment

Maps: Direct access to your mapping data for real-time decision making and future planning

Accounting: Easy and convenient access to your account including statements and invoices

WeatherView®: Local, in-depth weather data from the Co-Alliance Weather Network in a proprietary app

Grain: Ability to place and track bids, offers, & sales. Commentary, futures, options prices, historical pricing, and USDA reports.

Education: How-to videos for each DOT and additional content
