

LAND O LAKES® Amplifier® Max Calf Milk Replacers

Deliver performance level nutrition

- ✓ Part of a performance level feeding program
- ✓ Contains probiotics and prebiotics to support a healthy gut microbiome

Establish a favorable gut microbiome

Probiotics and prebiotics help support a proper balance in the gut microbiome to assist calves in breaking down nutrients for energy and addressing health challenges.

Support intake and growth

Intake optimizing technologies, including a unique combination of essential oils and flavors, support weight gain. LAND O LAKES® Amplifier® Max calf milk replacer is research proven to deliver optimal total gain, starter intake and feed-to-gain ratios compared to other 22:20 formulations.¹

Feeding considerations:

-  Feed 3 quarts, 2 times daily or 2 quarts, 2-3 times daily, starting after colostrum feeding on day 1.*
-  Always provide fresh, clean water beginning on day 2.
-  For optimal results, offer free-choice Purina® AMPLI-CALF® Starter Feed beginning on day 3.

*Always follow label directions

Let's talk about a calf program to meet your farm goals.
