FEEDING RECOMMENDATIONS:

Dog Size	Weight	Daily Amount (cups)*
Toy Breeds	up to 12 pounds	1/2 - 1 1/2 cups
Small	12 - 25 pounds	1 1/2 - 2 1/2 cups
Medium	25 - 50 pounds	2 1/2 - 3 1/2 cups
Large	50 - 100 pounds	3 1/2 - 6 cups
Extra Large	100+ pounds	6 cups plus**

* The above feeding directions are based on an eight-ounce dry measuring cup.

**For dogs 100 pounds or over, feed approximately 1/2 cup of food per 10 pounds of body weight.

Country Acres® 27% Protein Dog Food is formulated with quality ingredients to meet the nutritional needs of all life stages of dogs. No supplements are necessary. Even the most finicky dog will love the nutritious, crunchy nuggets.

Country Acres® 27% Protein Dog Food may be served moist or dry. Either way, it will provide your dog with complete, balanced nutrition. To serve moist, simply add one part warm water to four parts Country Acres® 27% Protein Dog Food. Stir until chunks become moistened. Feed while warm.

For Adult Dogs: Dogs should be maintained in good body condition and not allowed to become overweight. The food intake required to maintain good body condition will vary depending on age, activity level, environment and other stress factors. Consequently, the food requirement for each dog will vary, and should be adjusted accordingly. Use the standard chart above as a guide. Pregnant, nursing and hard-working dogs or dogs exposed to cold weather may require 2-3 times these amounts.

For Puppies: Puppies may begin eating Country Acres® 27% Protein Dog Food at about four weeks of age. Add warm water to soften the food and after 8 weeks, mix with water or feed dry. If fed dry, Country Acres® 27% Protein Dog Food may be kept before the puppies at all times. The amount fed should be sufficient to maintain steady optimal growth and weight, but not so much as to stimulate excessive growth and/or weight gain at an early age.

Feeding Tip: Changes in your pet's feeding habits should be made gradually. When changing over to Country Acres® 27% Protein Dog Food, first substitute small amounts of Country Acres® 27% Protein Dog Food in place of your pet's current food. Then over the next week to 10 days, increase the amounts of Country Acres® 27% Protein Dog Food, while decreasing amounts of his other food, until your pet has 100% Country Acres® 27% Protein Dog Food.

Remember to provide plenty of fresh clean water in a clean container at all times.
