NEWS & NOTES

September 2022

One of the benefits of doing business with a Cooperative is the profits are paid back to the members. Profits are paid back in two ways, cash patronage and equity retirements. Cash patronage from last fiscal year was paid back to our members this past May. Members received 40% of their total earned equity as a cash payment and the remaining 60% went into the member equity account. The equity funds are used by the Cooperative to fund the business. The funds put into the equity account have been getting paid back to members approximately 11 years after they were earned. In August, Country Visions mailed out \$3.5 million in equity retirement checks to members. That total included equity funds that get paid out at 100% from members over age 70 and those who have passed away. The mailing also included our normal chronological revolvment of member equity accounts and equity funds from CoEnergy Alliance. It is great that Country Visions is able to get this money back into the hands of the members who support our Cooperative!

The start of September brings the start of a new fiscal year for Country Visions Cooperative. We are looking forward to working together again with you, our members, as we head into our next fiscal year.

Mother Nature still has a chance to send a variety of weather conditions our way between now and fall, but harvest season will be right around the corner. Please remember to be patient and travel safely on the roads. When it is harvest season you want a reliable provider for your fuel and lubricant needs. Contact our Energy Office at 920/754-2240 or 800/236-4047 for more information and make plans now for the upcoming season.

County Fairs & Shows We hope you had a successful county fair season. It was wonderful to see the youth and their projects, as well as everyone that came out to support them. We appreciate those that counted on Country Visions to help you grow, feed and care for your animals. Thank you for doing business with Country Visions Cooperative.
