# NEWS & NOTES

November 2022

www.countryvisionscoop.com | 800-236-4047

**Surprised that it's November already?** We've all seen the signs; like shortened daylight hours, leaves changing colors, cooler temperatures and even some snow made an appearance, but yet it feels like it snuck up on us. Now our mind switches to the holiday season with Thanksgiving, then Christmas and the New Year will be here before we know it.

**As we welcome November,** we know the fall harvest season will be wrapping up soon. Our Agronomy Team will use this time to help our growers evaluate the results from this year and prepare for the next planting and growing season. Growers should watch for notices from us about opportunities for learning about products and services now available, as well as updates on new technology.

**Thinking about a career change or getting back into the workforce? Come work with us!** Full-time or Part-time, find something that works best for you. See what positions are available and complete an online application at <https://www.countryvisionscoop.com/careers>. Stop in and talk with a location manager if you would like more information

**As we head into the holiday and winter weather season,** be aware that the business hours may change at some of our locations. If you are uncertain, please call ahead to check if your destination will be open. We thank you for your patronage and for seeing value in the products and services you receive as a member of Country Visions Cooperative!

**Thank you for being a member of our Cooperative!**
