

DKC64-25 BRAND

Relative Maturity

114

Trait

DroughtGard
HYBRIDS
VTDoublePRO

Key Strengths

Has shown outstanding yield stability in lower yield environments

- Decent ear flex allows planting at moderate populations
- Can provide a moderate level of tolerance to Southern Rust
- Strong potential in the Southern 110 and throughout the 115RM zones
- Position into soils less likely to observe root lodging
- Position in fields with reduced risk of Anthracnose Stalk Rot

MANAGEMENT

VALUE ADDED TRAIT	DGVT2P
RELATIVE MATURITY	114
GDUS TO MID-POLLINATION	1335
GDUS TO BLACK LAYER	2845
PLANTING RATE	MEDIUM

ISOXAZOLES SENSITIVITY - PREEMERGENCE	A

STEWART'S LEAF BLIGHT	-
CORN LETHAL NECROSIS	-
COMMON RUST	-

LEGEND

These ratings are approximate and should not be considered as absolute. Based on Monsanto conducted trials relative to other DEKALB® brand corn.

Rating Scale: 1 = Excellent; 9 = Poor; - = None

Codes: L = Low; S = Short; M-S = Medium - Short; M = Medium; M-MH = Medium - Medium High; M-H = Medium High; M-L = Medium-Low; M-T = Medium Tall; MH-H = Medium High - High; T = Tall; H = High

Herbicide Tolerance

Ratings are based on observations and research using herbicides at labeled and above labeled rates to simulate extreme environmental conditions, misapplication and adverse soil pH or organic content.

A = Acceptable

Either no adverse effects from the corn product/herbicide combination were noted on any traits or only slight damage could be noted under adverse conditions or herbicide application at higher than label rates.

C = Caution

The corn product/herbicide combination is usually not a problem if sprayed according to label directions, but can result in plant height reductions, stand loss and suspected yield loss under very adverse environmental conditions, high rates or extreme soil pH levels or organic content. Use drop nozzle spraying for postemergence herbicides to avoid interactions.

W = Warning

Not advised-this corn product/herbicide combination should not be used under any circumstances.

GDU (Growing Degree Unit)

Although maturity of one corn product relative to another remains reasonably constant, the actual number of calendar days from planting to any given point of plant development varies with temperature, day length, rate and date of planting, soil fertility and other environmental factors. All GDU values calculated are from the time of planting.

DEKALB Corn:

SS = SmartStax® corn,
SSRIB = SmartStax® RIB Complete® corn blend,
VT2P = VT Double PRO® corn,
DG-VT2P = DroughtGard® Hybrids with VT Double PRO® corn,
VT2PRIB = VT Double PRO® RIB Complete® corn blend,
DG-VT2PRIB = DroughtGard® Hybrids with VT Double PRO® RIB Complete® corn blend,
VT3 = VT Triple PRO® Corn
VT3PRIB = VT Triple PRO® RIB Complete® corn blend,
DG-VT3PRIB = DroughtGard® Hybrids with VT Triple PRO® RIB Complete® corn blend,
RR2 = Roundup Ready® Corn 2,
TRE = Trecepta® corn,

TRERIB = Trecepta® RIB Complete® corn blend,

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. *B.t.* products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete® corn blend products do not require the planting of a structured refuge **except** in the Cotton-Growing Area where corn earworm is a significant pest. **See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.**

Performance may vary, from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. **Glyphosate** will kill crops that are not tolerant to glyphosate. Insect control technology provided by **Vip3A** is utilized under license from Syngenta Crop Protection AG. **Herculex®** is a registered trademark of Dow AgroSciences LLC. **Agrisure Viptera®** is a registered trademark of a Syngenta group company. **LibertyLink®** and the **Water Droplet Design®** is a trademark of BASF Corporation. **Respect the Refuge and Corn Design®** and **Respect the Refuge®** are registered trademarks of National Corn Growers Association. **Bayer, Bayer Cross Design, DEKALB and Design®, DEKALB®, Disease Shield®, DroughtGard®, RIB Complete®, Roundup Ready 2 Technology and Design™, Roundup Ready®, SmartStax®, Trecepta®, VT Double PRO® and VT Triple PRO®** are trademarks of Bayer Group.
