

Evaluate Your 2021 Hybrid and Varieties and Start Thinking About Your Product Choices for 2022!

Take the time to inspect and evaluate your current lineup in the field and local plots. This is vital for setting expectations for this year and developing a solid plan for 2022. **Contact Your Local IAS Agronomy Professional** to set up a time to analyze your current and future seed strategies!

Click **HERE** for tips on evaluating corn hybrid demonstration plots!
