**Indication of Immediate Medical Attention and Special Treatment Needed** : In the event of an adverse response, treatment should be directed toward control of the symptoms.

### 5. Fire Fighting Measures

**Extinguishing Media** : Use foam, water spray, dry chemical or carbon dioxide extinguishing agents.  
**Specific Hazards Arising from the Chemical** : May produce hydrogen chloride, other chlorine compounds, and oxides of carbon and nitrogen.  
**Special Fire Fight Proc** : Wear self-contained breathing apparatus and full protective clothing. Dike area to prevent runoff of fire fighting water.

### 6. Accidental Release Measures

**Personal Precautions** : Keep unprotected and unnecessary personnel out of spill area.  
**Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.  
**Emergency Procedures** : Dike spilled liquid to prevent contaminating water supplies, lakes, streams, waterways or drains.  
**Methods and Materials for Containment and Cleanup** : Absorb liquid with an inert material, such as clay, sand or earth. Collect absorbent material and place in suitable closed containers for proper disposal.

### 7. Handling and Storage

**Precautions for Safe Handling** : Keep locked up and out of reach of children. Do not contaminate water, food or feed by storage, handling or disposal. Keep container tightly closed. Do not allow water to be introduced into the contents of the container.  
**Conditions for Safe Storage** : Store in a secured warehouse or storage building. Containers should be opened in well-ventilated areas. Keep container tightly closed when not in use. Do not stack cardboard cartons more than 2 pallets high. Do not store near open containers of fertilizer, seed or other pesticides.
