

## **Midway Co-Op Supports Local Wellness with \$10,000 Contribution to JCS Community Wellness Center**

### **JEWELL COUNTY, KS —**

Midway Co-Op is proud to support the JCS Community Wellness Center through a \$10,000 contribution made in partnership with CoBank's Sharing Success program. This investment reflects Midway Co-Op's continued commitment to strengthening the communities we serve across Jewell County.

The donation will help JCS Community Wellness Center expand access to childcare, improve rural health and wellness resources, and create new opportunities for families and the local workforce. These services play a vital role in supporting quality of life and long-term community sustainability in rural areas.

CoBank's Sharing Success program matches contributions from cooperative members, amplifying the impact of local giving and helping rural communities invest in meaningful projects. Through this partnership, Midway Co-Op can extend its support even further to organizations working on the front lines of community development.

Midway Co-Op remains dedicated to giving back and supporting initiatives that strengthen the places where our members live and work.
