Midway Coop and Land O'Lakes Invest \$4,000 in Osborne Rural Fire District #1

OSBORNE, Kan. - Midway Coop, in partnership with Land O'Lakes, recently invested \$4,000 in the Osborne Rural Fire District #1 to support the department's continued efforts to protect the communities of Osborne and Portis.

Midway Coop contributed \$2,000, and Land O'Lakes provided a matching contribution of \$2,000, bringing the total community investment to \$4,000.

As a farmer-owned cooperative, Midway Coop believes strong communities are essential to a strong agricultural economy. Supporting the organizations that protect and serve local communities is one way Midway invests in the places its members, employees, and customers call home.

Volunteer firefighters play a vital role in protecting lives, property, farms, businesses, and critical infrastructure throughout north central Kansas. Midway is proud to support the volunteers who respond whenever their communities need them.

The investment was presented locally by Dean Heise, Midway Coop Vice President of Feed, who presented the contribution on behalf of Midway Coop and Land O'Lakes. "Volunteer firefighters provide an invaluable service to our communities," said Craig Mans, General Manager of Midway Coop. "Through our partnership with Land O'Lakes, we're able to make meaningful investments that help strengthen the communities where our members, employees, and customers live and work. We're proud to support the volunteers who dedicate their time to protecting our communities."

Midway Coop also expressed its appreciation to Land O'Lakes for partnering in the community investment program and helping expand the impact of local giving initiatives.
