INGREDIENTS

Grain Products, Roughage Products, Processed Grain By-Products, Plant Protein Products, Molasses Products, Propionic Acid, Calcium Carbonate, Forage Products, Animal Protein Products, Salt, Ammonium Chloride, Selenium Yeast, Zinc Oxide, Manganous Oxide, Ferrous Sulfate, Sodium Molybdate, Ethylenediamine Dihydriodide, Sodium Selenite, Cobalt Carbonate, Vitamin A Acetate, Vitamin D-3 Supplement, Vitamin E Supplement.

FEEDING DIRECTIONS: This complete pelleted feed is designed to support fast efficient gains for lambs from 35 lb to market. Lambs should be fed twice a day and worked up to full feed over a two-week period . After lambs are on full feed, no hay or other feedstuffs need to be fed with Co-op 16% Pelleted Lamb Grower/Finisher-BOV as it is a complete pellet with the roughage built in. Keep feed in front of lambs at all times. Feed continuously at 1.00 to 4.66 lb per head per day to provide not less than 15 mg nor more than 70 mg of Lasalocid per head per day depending on body weight. Do not exceed 0.30 ppm supplemental selenium in the total ration. Keep fresh, clean water available at all times. Vaccinate all lambs to prevent enterotoxemia (overeating disease) with both C and D toxoid.

CAUTION: The safety of Lasalocid for use in unapproved species has not been established. Do not allow horses or other equines access to feeds containing Lasalocid as ingestion may be fatal.
