FEEDING DIRECTIONS: Offer this product at the general rate of 0.75 to 1.25% of body weight daily depending on activity level and body condition along with good-quality forage. Make feed changes slowly. Offer one half of the daily feed in the morning and the other half in the evening. For unacclimated horses, begin feeding at the rate of 0.25% of body weight daily, slowly increasing over 10 days to previously recommended levels. Always offer clean, fresh water at all times.

CAUTION: Do not feed to sheep or other copper-sensitive animals.
