**FEEDING DIRECTIONS:** Provide one block per 20 head of animals with adequate pasture or hay. When block is 1/2 consumed add another block. Feed to attain 2 to 3.5 oz of block consumption per head per day. If consumption exceeds 3.5 oz per head per day, provide additional forage or supplemental grain for energy. In some feeding situations consumption may be reduced by moving the blocks farther from the water supply or increased by moving the blocks closer to the water supply. Always provide plenty of clean, fresh water.

**CAUTION:** This block contains no added copper. Not recommended for other species.
