FEEDING DIRECTIONS: Feed continuously as sole ration to growing goats 6 weeks of age or older. Do not allow animals to run out of feed. Always provide plenty of clean, fresh water.

CAUTION: Do not allow horses or other equines access to feed containing Monensin. Ingestion of Monensin by horses has been fatal. Monensin-medicated goat feeds are safe for use in goats only. Consumption by unapproved species may result in toxic reactions. Do not exceed the levels of Monensin recommended in the feeding directions, as reduced average daily gains may result. Do not feed to lactating goats. Do not feed to sheep or other copper-sensitive animals.
